

I want the "Do Not Call" law to continue to be in effect. Telemarketer calls of any type are annoying. A lot of times I have become hostile with telemarketers, which is not my nature. Please do not allow the "Do Not Call" law to be overridden. At times, my friend stays with me and works nights. In the past he was wakened by phone calls from telemarketers. It has been peaceful lately but I would disconnect my phone if this law were to be overridden. Thank you, Kim Maddy
